

COMPLETED PROJECTS

PROJECT DESCRIPTION
Roads & Traffic Authority – Southern Enabling Works EA asset relocation, Pacific Highway, Ourimbah, Southern Enabling Works
Todd Bowd Electrical – Scone Supply and installation of kiosk substation, LV reticulation and street lighting, New England Hwy, Scone
Bolkm Pty Ltd – Wickham Waterfront Supply and installation of HV/LV reticulation and installation of 1* 600kVA kiosk substation
ADW Johnson – Anambah Business Park Anambah Business Park URD
Daracon - The Outlook, Fletcher Supply and installation of high voltage reticulation, low voltage reticulation, low voltage pillar boxes, street lighting and installation of 2* 400kVA kiosk substations.
Broad Constructions – Morrisett Kiosk at Morrisett Coles Supermarket
Bolkm Pty Ltd – Raymond Terrace Supply and Installation of 1* 600kVA Kiosk Substation and High Voltage Underground mains.
Harper Somers O’Sullivan – McDougall Business Park Electricity reticulation for Stage 1B & intersection lighting
GWH Group, Berkeley Vale Supply and Installation of High Voltage reticulation, Low Voltage reticulation, Low Voltage Pillar Boxes, Street Lighting and Installation of 1* 800kVA Kiosk Substations
Classic Group, Budgewoi Supply and Installation of One (1) Kiosk Substation and associated Level 1 works, Tenth Avenue, Budgewoi
GWH Group - Rutherford Supa Centre Installation of 2 kiosk substations and underground 11kV cabling.
ADCO Constructions Pty Ltd – Lake Macquarie Fair Shopping Centre Installation of 4 Kiosk Substations at Mount Hutton shopping centre.
ABI Group – Mater Hospital, Waratah Redevelopment Installation of 2 kiosk substations and underground 11kV cabling, Mater Hospital, Waratah
Robson Civil Projects – Gilleston Heights Supply and Installation of Street Lighting Cessnock Road and Development Intersection, Gilleston Heights
Stockland Developments – Darcy’s Peak, Gilleston Heights Supply & installation of 11kV reticulation, LV pillar boxes & street lighting
Leighton Contractors Design, supply and construction of a 66/11kV Substation for the Shannon Creek Dam Project.
Spotless Upgrading of 10 substations at RAAF Base, Williamtown, NSW.
Country Energy Design and construction of two 66/11kV Zone Substations at Tamworth, NSW
GWH Group Babilla Close Beresfield - Installation of kiosk substation and underground 11kV cabling.
GWH Group Channel Road Mayfield - Installation of kiosk substation and underground 11kV cabling.

COMPLETED PROJECTS

PROJECT DESCRIPTION
Karuah URD 40 lot residential subdivision.
D'Albora Marina – Nelson Bay Installation of kiosk substation and underground 11kV cabling.
Lagoon Estate Belmont URD 15 lot residential subdivision.
Morisset Park URD Morisset - 40 lot residential subdivision.
St Mary's Muswellbrook URD 40 lot residential subdivision.
Tomago Industrial Estate URD 40 lot industrial subdivision.
Cameron Park Stage 37 URD 40 lot residential subdivision.
DBT Australia Installation of 11kV EA Switching Cubicle, private 11kV underground cabling and private 11kV chamber substation.
Railcorp Installation of OHEW on 66kV line to Berowra Rail substation
Heatherbrae Industrial URD 20 lot industrial subdivision.
Downer Engineering Prospect Reservoir design and construct 11kV feeder to new pumping station
Boulderstone Hornibrook Asset relocations for Windsor Rd upgrade
Leighton Contractors Asset relocation for North West transit way
Valad Industrial Subdivision - installation of 5 kiosk substations at St Mary's
Railcorp Upgrade of 33kV feeder from EA zone substation to Sutherland Rail substation
Fern Bay URD 130 lot URD subdivision.
Cudgen 66/33/11kV Zone Substation Enhancements to the Cudgen 66/33/11kV Zone Substation to accommodate the larger 70MVA power transformers, two 11kV earthing transformers and two auxiliary transformers
Hunter Economic Zone Stage 1 - 11kV underground and overhead reticulation.
66kV Supply to Gingko Mineral Sands Mine 124km 66kV feeder from Dareton to Pooncarrie (Mildura Vic region) to supply BEMAX Resources mining development.
Gingko Mineral Sands Mine Internal Reticulation Overhead and underground 22kV reticulation works and substation construction.
Galong Lime Kiln Project 14km 66kV concrete pole overhead power line in the Yass region. Built for Country Energy to their standards.

COMPLETED PROJECTS

PROJECT DESCRIPTION
<p>Wagga Wagga 66 11kV Zone Substation Civil construction of new 66/11kV zone substation including switchroom construction, access driveway, fencing, transformer enclosures with oil bunding and drainage via oil</p>
<p>Westfield Asset relocation (33kV & 11kV) and installation of new feeder from Homepride zone substation.</p>
<p>Condong Switching Station Design and construction of 66kV transmission line and switching station for co-generation sugar mill.</p>
<p>Sydney Water 33kV upgrade and 11kV feeder installation</p>
<p>Riverglades Estate Karuah URD 40 lot underground residential subdivision at Karuah</p>
<p>Westlink M7 Motorway Electrical Relocations Relocation of LV, 11kV and 33kV overhead power lines and civil and electrical installation of LV, 11kV and 33kV underground cables at several intersections along the route of the M7.</p>
<p>Maryland Zone Substation Civil construction of new 132/11kV zone substation including site benching, grout filled piles and driven timber piles, access roadway, fencing, switchyard foundations, switchroom construction, transformer enclosures with oil bunding and drainage via oil separation tank.</p>
<p>The Boardwalk Chamber Substation Installation of 2 x 1500kVA transformers, 11kV RMU, protection panels, battery charger, LV main switchboard and associated HV, LV and protection cabling.</p>
<p>NIB Private Hospital Chamber Substation Installation of 2 x 1500kVA transformers, 11kV RMU, protection panels, battery charger, LV main switchboard and associated HV, LV and protection cabling.</p>
<p>Banora Point Zone Substation Upgrade Civil and electrical design and construction of upgrade of the existing 33/11kV zone substation to 66/11kV including access roadway, new fencing, switchroom modifications, new control and protection panels, 11kV capacitor bank, 2 x 100kVA auxiliary transformers and all switchyard foundations, steelwork and erection of electrical equipment and busbars.</p>
<p>Clearwater Crescent Zone Substation Civil and electrical design and civil construction of new 33/11kV zone substation including access roadway, switchroom constructed from per-cast concrete panels with integral 'brick snaps' finish, two 20MVA transformer enclosures with oil bunding and drainage and acoustic/fire walls.</p>
<p>Terranora Substation Upgrade Design civil and electrical upgrade for installation of additional 100MVA 110/66kV Transformer and three 66kV underground cable feeder bays. Construction of transformer foundation and supply of busbars and bus fittings. Design and supply of materials for Stages 2 & 3.</p>
<p>Reconductoring of Overhead 132kV Feeders – Bankstown Tower foundations, upgrade of galvanised steel tower members, replacement of insulators and reconductoring of 3km of 132kV dual circuit transmission lines</p>
<p>Tuncurry Zone Substation Design and Construction of a 66/11kV 30MVA Zone Substation at Tuncurry, including Switchroom/Control Building, 170m of road and drainage construction.</p>

COMPLETED PROJECTS

PROJECT DESCRIPTION
<p>Coffs Harbour - Kempsey 132kV Construction of section of 132kV Overhead transmission line.</p>
<p>Beltana Mine Design and construction of Fibre Optic installation, 66kV power line reticulation, cable over highwall installation and 900m of overhead power line</p>
<p>Mt Thorley Coal Mine 66kV Overhead and Underground power line alteration</p>
<p>The Vintage Estate – Pokolbin Housing Estate power cable reticulation, street lighting, pillow boxes, 11kV mains cable installation for 200 lots</p>
<p>Mount Arthur North Project Design and construction of over head power lines, underground cabling, substations and earthgrids</p>
<p>Glennies Creek Mine Construction of 3.5km 66kV power line, 66kV circuit breaker yard and design and construction of a 66/11kV substation.</p>
<p>Telegraph Point Zone Substation Civil and Electrical Design and Construction of 66/11kV substation for Country Energy and the design of 3.2km of 66kV overhead power line.</p>
<p>Mutawintji National Park Connection of grid supply and installation of low voltage reticulation.</p>
<p>Hunter Water Corporation Maintenance of HWC high voltage infrastructure for a period of twelve (12) month with option to extend a further twelve (12) months.</p>
<p>Hunter Valley Coal Corporation Design, supply, install and commission 150kW pump starter complete with associated instrumentation & control equip at Mount Owen Mine, Ravensworth East, South Dam.</p>
<p>Sedgman Pty Ltd Supply and installation of 1800m aerial fibre optic cable at Warkworth Mine</p>
<p>Ulan Coal Mines Supply and installation of 11kV U/G cables</p>
<p>Barclay Mowlem Design, supply and construction of 33kV OHL deviation and installation of two 33kV metering points and construction of new substation for the Bayswater Rail Loading Facility.</p>
<p>Peabody Resources Construction of 33kV OHL and supply and installation of two 33kV Metering Points for Ravensworth East Mine and Mt Owen Mine supplies.</p>
<p>Stratford Coal Construction of 11kV OHL and installation of 11/11kV underground cable. Supply of substation skid base and assembly of substation.</p>
